Subject: Three steps to getting retirement ready

Helping you get retirement ready | View in browser (AAA)

Workplace Investing

A photograph of a smiling man in a dark suit and white bicycle helmet riding a bicycle. The background is a blurred city street.

Helping you get retirement ready

{Firstname}, life is full of changes; some we choose and some happen unexpectedly. Many have a financial impact, which can throw us off course if we aren't well-prepared.

It can help to focus on things we can control. Here's three small steps you can take now that could help you feel more prepared for retirement.

1. Work out how much you'll need

From covering the basics like food, insurance and energy, to dining out and holidays, it can be hard to picture how much you might spend each year once you've retired. Take a look at our [retirement calculator](#) which can help you work out how much the retirement lifestyle you'd like may cost.

2. See how far you've come already

Log in to [PlanViewer](#), or check your annual statement, to find out how much you've saved so far in your Fidelity workplace pension. If you've had a few different pensions over the years and can't track all of them down, try the Government's free [Pension Tracing Service](#).

3. Find out if you're on track

Check out our [myPlan](#) tool, which can help you see if you'll meet your pension savings goals and what your retirement income may be when you retire. Remember, these goals are yours to control, which means you can change them if you need to.

Start planning today

Top tip - Log into [PlanViewer](#) and make sure your personal contact details and planned retirement age are up to date. That way, we can keep you informed of anything important relating to your pension, and you can continue to keep track of your pension.

Discover Fidelity, your workplace pension provider,
at fidelitypensions.co.uk

You can also log into PlanViewer via the app. Download it here.
